## The Fifteenth Amendment.

Three-quarters of the States, North, South, East and West, having through their Legislatures ratified the Fifteenth Amendment, and Texas, the last of the revolted States, being restored to political relations with the Union by representation in Congress, the President has by official message to Congress proclamated the adoption and incorporation of the amendment as part and parcel herewith of the Constitution, and so, the fugitive law of the land. The proclamation of emancipation, recognizing the manhood of the slave, the fifteenth amendment bestows freedom with the rights of citizenship. Henceforth he can participate in the making of the laws which effect his condition. With the ballot in his hand, the colored man will compel a decent respect from his fellow-citizens, and will cease to be a butt of ridicule, and mark of scorn from any political party. But the elective franchise should be rewarded by its new recipients, not as an end but as a means. The elevation of the colored race depends upon their own exertions, upon their soberness, their industry, their education, and in whatever degree they are skillful in labor, apt and progressive in intelligence, in whatever degree they acquire property and display talent, in the same measure will be the extension in which they will be held and the influence they will be capable of exerting. The first thing therefore which the colored race should seek is popular education and this soonest equally the interest of the more favored and more powerful white citizens to secure to them. We do not believe that colored men at the North will exercise the elective franchise less wisely, or less honestly than it is now exercised by the present voting class in this section, but there is an urgent necessity for the establishment of a system of popular education at the South, in order that the share of the freedom in the Government may become, in the language of President Grant, "a blessing and not a danger."

## Connecticut Election.

The annual election for Governor and other State offices and for members of the Legislature will be held in Connecticut on Monday next, the 4th of April. In addition to State offices a new Legislature is to be chosen, to consist of 31 Senators and 228 members of the lower house. The present Senate consists of fourteen Republicans and seven Democrats and the House of 120 Republicans and 108 Democrats. The State Administration is "Republican" having been elected last year by majorities ranging from 41 to Governor, to 2,000 on other candidates. The contest for Governor was between the same candidates last year as now, and was "very active and close." It is thought that this year Gov. Jewell's majority over English will be materially increased.

The total vote in Connecticut is about one hundred thousand, and Grant's majority was 4,045. It is calculated that the colored vote will be not less than two thousand, and Jewell's majority over English ought to be a very substantial one.

## System of National Education.

The House Committee on Education have reported a bill to establish a system of national education. It was drawn by Mr. Hoar, of Massachusetts, and on his motion made the special order for the second and Tuesday of next December, when it will come up for discussion. It is in nineteen sections, but the essential features can be stated in a few words. The President is authorized, with the consent of the Senate, to appoint a School Superintendent for each State, and there are provisions for the appointment of Inspectors and Local Superintendents, and for the establishment and supervision of district schools. The machinery of the bill is in the hands of the Secretary of the Interior and Commissioner of Education, and the annual report is to be laid before Congress by the last named officer. The bill therefore on to lay a direct tax in accordance with the provisions of the constitution, and declares that the money raised in each State under this act shall be expended there for the purposes of education. The last section provides that the requirements of all preceding sections shall be satisfied with respect to any State, whenever it is proved to the satisfaction of the President that there is established in said State a system of common schools which provides reasonably for all the children therein who dwell in populations sufficiently dense to enable schools to be maintained. It will be noticed that the bill cannot be held as applying to any Northern State, for the reason that all of them have good common school systems. Mr. Hoar prepared the bill with great care, and next winter will press it to a vote. If Tennessee and other Southern States don't fully pay the payment of this direct tax and Government's interest with educational matters, the way of relief is plain and easy to follow.

## Taxing National Bank Shares.

The following decision in relation to National Bank shares was announced by the United States Supreme Court yesterday.

The First National Bank of Louisville vs. the State of Kentucky—Error to the Court of Appeals of the State of Kentucky.

The question is, whether a tax of a State on the tax on the shares of a national bank, and on its deposits, is collected through the bank. The court holds Mr. Justice Miller delivering the opinion, that the property in the bank, called a share, is distinct from the capital of the bank, and that a share as the property of the shareholder may be taxed although the stock of the bank may be all invested in United States securities. The law requires that the tax be paid by the shareholder, and they may be compelled to pay it. They could be compelled for a personal debt of the shareholder, and to make them similarly responsible, for the tax is the virtual effect of the state law. The judgment of the state court was affirmed, the Chief Justice dissenting.

## The Flashings.

Horner's Bazaar says the short costume is the regulation street attire for another season, and we are glad to see indications that it will continue in vogue for an indefinite period. No other dress is so appropriate for street wear, and none is so

generally available now that short skirts may be worn indoors on all occasions, except when full dresses are required.

Sold colors, with some variations of stripes and plaids, will prevail in short costumes, and an indispensable requisite of stylish toilet is a hat which may be made of straw, yielding fibers that fall into natural creases when looped and fastened in the elaborate manner decreed by fashion. The surpassing beauty of the summer costumes of the winter over-those of the heavy poplin demonstrated that such is the tendency of all graceful dressing, hence we have for spring suits such valuable materials as—Clara crepe, peacock and ariette, for instance, while the summer, are soft finished percales and muslins wholly innocent of starch, and intended for light wear.

What will be worn more than anything else, when the proper weather arrives, is suits of wash materials. A half dozen of these will cost no more than a single poplin suit, and always afford a fresh dress, and the amount on hand is greater by \$5000 sterling than at the corresponding time last week.

The arrival of horses, cattle and sheep which arrived 1½ to 2½ ago from the Argentine Republic were sold at Altmuth's. The prices realized were unsatisfactory. Two miles were sound but in poor condition on account of their long confinement. This voyage was a long time last week.

The goods sold for the yard for suits are:

White, blue, buff or pearl gray, striped, crosshatched or with twisted stripe costing

from sixty cents to one dollar a yard, satin jeans twilled and glossy, at seventy cents each.

Unlined cretonnes that do not muss easily, are forty cents and last.

Gold opened at 112½; closed at 113½.

For Railroad Time Tables see last column, fourth page.

Two Good Compositors wanted at this office immediately.

The Legislature is to adjourn April 7th instead of the 10th, as previously reported.

The new Presbyterian church at Roosevelt will be ready for occupation May 1st.

A bill has passed the Legislature incorporating the Herald Printing Company of Pittsburg.

The Common Council hold their final meeting for the transaction of business this evening.

Joseph SHIPPEN, Esq., has received the appointment of City Attorney from the Meadville City Council.

The building season has commenced unusually early. Upwards of twenty new dwellings are in course of erection.

The "Grand Duchess of Gerolstein," with all its original music, its fine scenery and effects will be presented to-night at Corinthian Hall.

The old landmarks are fast passing away, and among them the old buildings between Pine and Diamond streets, which are to be carried off as street obstructions.

MILLER Farm claims the "broom." A

dispatch, from H. T. Tolmie, railroad agent, informs us that one hundred and twelve barrels of oil were shipped from that station yesterday.

A FARMER living near North East was arrested a few days ago for selling beef short of weight. He used steelyards, and soon proved that it was untruthful on his part to cheat my person, hence his discharge as a matter of course.

The law requires that the returns of income for the preceding year be made to the Assessor, and the assessment made within the month of March. After to-day, the first of April, the Assessors are allowed to assess those not making returns according to their best means of ascertaining the liability of the delinquents.

**Letter from Petrolia.**

PETROLIA, March 29, 1870.

Titusville Morning Herald:

Oil matters are very brisk with a lively demand for crude and better prices, buyers offering \$1.75 per barrel and sellers calling at \$1.80 on the wells. About 2,000 barrels have changed hands at the latter figure within the last six days with the prospects of a still further rise, as the production, owing to the flooding of the King territory has not exceeded 4,000 barrels for the last week. The well lately struck by Lawton, Vivian Co., on lot 12 in 12th soon, has been tested and proves to be fully up to sixty barrels per day. The McDougal in the far west is pumping about 30 barrels pure oil per day. The export firms are running their full capacity. On the opening out of several new wells will be put down, and active preparations for the same are being made since the Lawton & Vivian struck their well on lot 12, 12th, the opinion as to the best locality is divided between the east and the west. Some sales of territory in both localities have been made at fair figures with the view of immediate operation.

The well owned by Captain Meadow of Titusville, still holds her own and is easily pumped. She yields about 12 barrels in 12 hours.

They are about re-locating the old Bowditch territory, and before many days some six wells will be running there.

Crude first pumped, \$1.80 per barrel. Tanked \$2 to \$2.25. Refined 2d to 2d per barrel.

The shipments are 23 car loads per day.

DIRECTLY south of Curry are several 100 quarters opened, and others soon will be.

On the farms of Mr. Z. Olmstead and Mr. N. Heath an abundance of the article, while on the land of Mr. A. C. Beardley, at the head of Summer street, is a quarry from which large quantities of stone were taken during the past season. Mr. Beardley intends constructing a horse railway from his quarry to the P. & E. Railroad track, which will greatly facilitate the bringing of stone to market.

**COMMON COUNCIL.**  
WEDNESDAY EVENING, March 30.  
Present—Messrs. Burtis, Blase, Brown, Keown, Lowrie and Stewart.  
Absent—Messrs. Withrop and McCrum.

The minutes of special meetings of Council February 25th, March 24th, and March 26th, 1870, were read and approved. The following bills were ordered paid.

E. Lathey, team on streets 16 days, \$6.00.

O. F. Fuchs, " 21 days, " 107.50.

A. H. Tolson, laborer, " 1 " 10.00.

Starkey, " 200.00.

P. Konnen, team on streets, " 13 " 5.00.

E. B. McDaniel, team on streets, abstinent for bridge on Washington street, " 359.10.

D. McDonald, bal. on contract for building stone wall to bridge Washington street, " 344.15.

James C. Cowan, for month of March, " 62.00.

Charles Brown, horse and cart for streets and roads, " 100.00.

D. Bosch, services as Chem. Engineer, months, " 100.00.

H. C. Keown, services as Ass't. Engineer, six months, " 100.00.

P. W. Lee, services as Ad'lt. Ass't. Eng., " 100.00.

F. W. Abbott & Co., services for month of March, " 100.00.

M. B. D. McDaniel, as Chief of Police for month of March, " 100.00.

John Doherty, services as policeman for month of March, " 100.00.

John Doherty, services as janitor of County Court House, " 100.00.

L. W. Wilcox, services as City Attorney, " 100.00.

The report of Chief Police for month of February, showing total number of arrests during said month to be 51, and total amount of fines accruing therefrom to eighty-one dollars, was read and to motion accepted and ordered on file.

Mr. Blase, seconded by Mr. Lowrie, moved that the Finance Committee be instructed to borrow money to the amount of two thousand dollars and issue bonds for the same. Adopted.

The matter of opening the street through the property of Mr. Combs, south side of Oil Creek, was on motion of Mr. Blase, seconded by Mr. Lowrie, laid over to Friday evening.

Mr. Brown, seconded by Mr. Lowrie, moved that the two plats and profiles of grades on Martin, Franklin, Washington and Perry streets between Pine street and the small rear; also of grades on Diamond street, submitted to the Council by A. B. Howland, City Surveyor, at meeting of the Council March 16th 1870, be adopted, and that the Clerk record the same in the Minute Book. Adopted.

On motion of Mr. Lowrie, seconded by Mr. Brown, the Street Commissioner was instructed to notify parties owning or holding property on Drake street, corner Pine, and on south side of Walnut street, corner Franklin; also parties owning or holding the lot known as the "Moon" lot on south side of Diamond street, to repair the side walks in front of their property immediately.

Mr. Brown, seconded by Mr. Lowrie, moved that the plan of streets submitted to the Council by A. B. Howland, City Surveyor, at the special meeting held March 26, 1870, and entitled "Plan of streets north of Oil Creek in the city of Titusville as located for and by authority of the Common Council," dated March 26, 1870, together with the written report accompanying said plan, setting forth in detail the location of streets, position of street monuments, &c., be adopted by the Council. The motion was adopted.

Mr. Stewart, seconded by Mr. Brown, moved that the plan of streets submitted to the Council by Mr. Combs, south side of Oil Creek, south of Drake street, corner Pine, and on south side of Walnut street, corner Franklin; also parties owning or holding the lot known as the "Moon" lot on south side of Diamond street, to repair the side walks in front of their property immediately.

Mr. Brown, seconded by Mr. Lowrie, moved that the plan of streets submitted to the Council by A. B. Howland, City Surveyor, at the special meeting held March 26, 1870, and entitled "Plan of streets north of Oil Creek in the city of Titusville as located for and by authority of the Common Council," dated March 26, 1870, together with the written report accompanying said plan, setting forth in detail the location of streets, position of street monuments, &c., be adopted by the Council. The motion was adopted.

Mr. Stewart, seconded by Mr. Brown, moved that the Ordinance Committee be instructed to notify parties owning or holding property on Drake street, corner Pine, and on south side of Walnut street, corner Franklin; also parties owning or holding the lot known as the "Moon" lot on south side of Diamond street, to repair the side walks in front of their property immediately.

Mr. Brown, seconded by Mr. Lowrie, moved that the plan of streets submitted to the Council by A. B. Howland, City Surveyor, at the special meeting held March 26, 1870, and entitled "Plan of streets north of Oil Creek in the city of Titusville as located for and by authority of the Common Council," dated March 26, 1870, together with the written report accompanying said plan, setting forth in detail the location of streets, position of street monuments, &c., be adopted by the Council. The motion was adopted.

Mr. Stewart, seconded by Mr. Brown, moved that the Ordinance Committee be instructed to notify parties owning or holding property on Drake street, corner Pine, and on south side of Walnut street, corner Franklin; also parties owning or holding the lot known as the "Moon" lot on south side of Diamond street, to repair the side walks in front of their property immediately.

Mr. Brown, seconded by Mr. Lowrie, moved that the plan of streets submitted to the Council by A. B. Howland, City Surveyor, at the special meeting held March 26, 1870, and entitled "Plan of streets north of Oil Creek in the city of Titusville as located for and by authority of the Common Council," dated March 26, 1870, together with the written report accompanying said plan, setting forth in detail the location of streets, position of street monuments, &c., be adopted by the Council. The motion was adopted.

Mr. Stewart, seconded by Mr. Brown, moved that the Ordinance Committee be instructed to notify parties owning or holding property on Drake street, corner Pine, and on south side of Walnut street, corner Franklin; also parties owning or holding the lot known as the "Moon" lot on south side of Diamond street, to repair the side walks in front of their property immediately.

Mr. Brown, seconded by Mr. Lowrie, moved that the plan of streets submitted to the Council by A. B. Howland, City Surveyor, at the special meeting held March 26, 1870, and entitled "Plan of streets north of Oil Creek in the city of Titusville as located for and by authority of the Common Council," dated March 26, 1870, together with the written report accompanying said plan, setting forth in detail the location of streets, position of street monuments, &c., be adopted by the Council. The motion was adopted.

Mr. Stewart, seconded by Mr. Brown, moved that the Ordinance Committee be instructed to notify parties owning or holding property on Drake street, corner Pine, and on south side of Walnut street, corner Franklin; also parties owning or holding the lot known as the "Moon" lot on south side of Diamond street, to repair the side walks in front of their property immediately.

Mr. Brown, seconded by Mr. Lowrie, moved that the plan of streets submitted to the Council by A. B. Howland, City Surveyor, at the special meeting held March 26, 1870, and entitled "Plan of streets north of Oil Creek in the city of Titusville as located for and by authority of the Common Council," dated March 26, 1870, together with the written report accompanying said plan, setting forth in detail the location of streets, position of street monuments, &c., be adopted by the Council. The motion was adopted.

Mr. Stewart, seconded by Mr. Brown, moved that the Ordinance Committee be instructed to notify parties owning or holding property on Drake street, corner Pine, and on south side of Walnut street, corner Franklin; also parties owning or holding the lot known as the "Moon" lot on south side of Diamond street, to repair the side walks in front of their property immediately.

Mr. Brown, seconded by Mr. Lowrie, moved that the plan of streets submitted to the Council by A. B. Howland, City Surveyor, at the special meeting held March 26, 1870, and entitled "Plan of streets north of Oil Creek in the city of Titusville as located for and by authority of the Common Council," dated March 26, 1870, together with the written report accompanying said plan, setting forth in detail the location of streets, position of street monuments, &c., be adopted by the Council. The motion was adopted.

Mr. Stewart, seconded by Mr. Brown, moved that the Ordinance Committee be instructed to notify parties owning or holding property on Drake street, corner Pine, and on south side of Walnut street, corner Franklin; also parties owning or holding the lot known as the "Moon" lot on south side of Diamond street, to repair the side walks in front of their property immediately.

Mr. Brown, seconded by Mr. Lowrie, moved that the plan of streets submitted to the Council by A. B. Howland, City Surveyor, at the special meeting held March 26, 1870, and entitled "Plan of streets north of Oil Creek in the city of Titusville as located for and by authority of the Common Council," dated March 26, 1870, together with the written report accompanying said plan, setting forth in detail the location of streets, position of street monuments, &c., be adopted by the Council. The motion was adopted.

Mr. Stewart, seconded by Mr. Brown, moved that the Ordinance Committee be instructed to notify parties owning or holding property on Drake street, corner Pine, and on south side of Walnut street, corner Franklin; also parties owning or holding the lot known as the "Moon" lot on south side of Diamond street, to repair the side walks in front of their property immediately.

Mr. Stewart, seconded by Mr. Brown, moved that the Ordinance Committee be instructed to notify parties owning or holding property on Drake street, corner Pine, and on south side of Walnut street, corner Franklin; also parties owning or holding the lot known as the "Moon" lot on south side of Diamond street, to repair the side walks in front of their property immediately.

Mr. Brown, seconded by Mr. Lowrie, moved that the plan of streets submitted to the Council by A. B. Howland, City Surveyor, at the special meeting held March 26, 1870, and entitled "Plan of streets north of Oil Creek in the city of Titusville as located for and by authority of the Common Council," dated March 26, 1870, together with the written report accompanying said plan, setting forth in detail the location of streets, position of street monuments, &c., be adopted by the Council. The motion was adopted.
